Enhancing Vocational Education and
Training (VET) through Mobility and
Internships

2ND NEWSLETTER

MOBILITY IN ITALY

VET Educators and students traveled all the way to Bologna, Italy. The meeting in Bologna took place from May 15th until May 19th. This meeting was a successful blend of cultural exploration, partner company visits, and group work meetings. The visits to partner companies strengthened collaborations and provided valuable insights into their operations. Through productive group work sessions, participants strategized and laid the groundwork for future projects.

FINAL CONFERENCE IN ARGOS

On June 9th in Argos, the project's outcomes were formally presented. The primary objective of this gathering was to disseminate information regarding Vocational Education and Training in rural regions while also fostering closer connections with the employment sector. VET educators, public sector representatives, and business professionals participated actively in a productive dialogue concerning VET education, addressing challenges, and exploring potential avenues for growth.
